

igris::schema::schema_node

```
graph BT; A[igris::schema::list] --> B[igris::schema::schema_node]
```

The diagram illustrates a relationship between two classes. At the bottom is a gray box labeled 'igris::schema::list'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'igris::schema::schema_node'. This indicates that 'igris::schema::list' inherits from or is a specialization of 'igris::schema::schema_node'.
